

Job Vacancy: Surveyor (Land, Topographical, Measured Building)

Reporting to: Survey Manager

Salary: up to £35,000 (dependent upon experience)

Benefits: Excellent Benefits including travel, flexible working, 20 days holiday plus bank holidays and birthday/equivalent day off, personal development

Additional benefits after completion of the probationary period includes private healthcare

We are one of the leading Building Information Modelling (BIM) and Land Surveying companies in the UK with a reputation of providing a quality service to our clients. We are boldly taking on bigger and brighter projects and are looking for highly motivated & exceptional surveyor to join our surveying team.

We are currently looking for a Surveyor to join our growing Survey department. This is an exciting opportunity for candidates to progress their career in the surveying industry and their leadership skills by supporting the development of our Trainee Surveyor.

You will need to have a developed level of experience in Land Surveys, Topographical Surveys, and Measured Building Surveys, in addition to being proficient in the use of and maintaining Leica Survey equipment and survey processing software (Leica Cyclone, N4ce, Rhino 3D).

You will be responsible for working across all required surveying activities for land, topographical and measured building surveys, including: establishing control networks; setup/operating surveying hardware (Leica TS16 total stations, P40, RTC and BLK laser scanners); exporting and processing of survey data using both N4ce and Leica Cyclone (Core + Reg360); producing finished drawings using AutoCAD, Rhino 3D and Revit; and following required QA procedures and proofing.

The potential to develop project management skills for the Survey side of the business is also available if desired.

Due to the location of the office and working hours of the job, a full clean driving licence and own transport is essential. The role will require travel to site, the office and occasional work away from home.

If you want to be part of exciting future in our modern offices which offer a flexible work/life balance, excellent benefits package, team building days and great career potential then please get in touch.

Criteria: Knowledge, Education and Experience

- a. GCSE in Maths and English (or equivalent qualification) at C
